BENEFITS OF SMART STORAGE SOLUTIONS:

Enhance Performance | Boost Productivity | Save Time | More Safety
Increase Revenue | Aesthetic Look

PALLET RACKING

The STEELFURTM Pallet Racking System is a complete range of Heavy Duty Storage System especially designed for optimized storage of industrial goods of any kind, size and weight. Well engineered & ergonomically designed basic components are thoroughly tested for its mechanical properties. The safe load capacities are calculated to meet safety requirements. The system design is thoughtfully made user friendly.

POWER MOBILE RACK

DRIVE IN RACKING

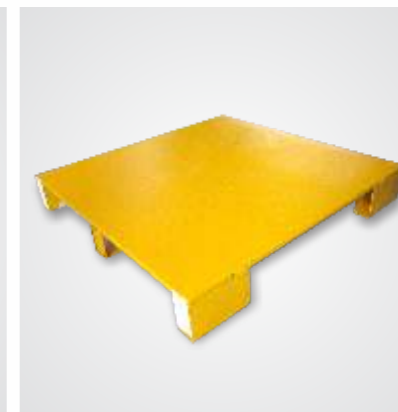

The STEELFURTM Drive-In & Drive-through Racking System is a compact Storage System especially designed for optimized storage space in comparison to the pallet racking system for block stacking of goods, which are too fragile or unstable to be stacked on top of the other. The system design is thoughtfully made user friendly.
